Xeno Training Background Questionnaire

If you would like to attend a Xeno User Training session, please provide responses to the following eight questions, so that InfoCentricity staff can adapt the pace and content of training to your needs.

1. How are you planning to use Xeno? How soon after training ends will you be using Xeno?
2. Have you seen a demo of Xeno?
3. Have you had any hands-on experience with Xeno? If so, how much?
4. How many years have you worked in the field of predictive modeling?
5. Are you familiar with modeling terminology and definitions? Examples include: Information Value (IV), Weight of Evidence (WoE), and the Kolmogoroff Smirnoff Statistic (KS)?
6. How many predictive models have you built? What types of models have they been?
7. What types of models are you building today? What software tools are you using to develop these models?
8. Do your responsibilities include developing score-based strategies? If so, in what area? What software tools are you using to develop the strategies?
